

LOT Call of Proposal 2018A Semester

This is call-of-proposal for Lulin One-meter Telescope (LOT) for Semester 2018A (from 01 January to 30 April, 2018). The proposal is divided into two categories:

Education -- use the latex template given in LOT_Proposal_Education.zip for this category.

Research -- use the latex template given in LOT_Proposal_Research.zip for this category.

Deadline for submission is: *** 01 December 2017 (before midnight local Taiwan time) ***

Please sent your proposal(s), the latex file and an additional one-page of Figures and/or Tables, to me by email: [cngew_@astro.ncu.edu.tw](mailto:cngeow_@astro.ncu.edu.tw)

IMPORTANT MESSAGE:

(A) Following nights are not available

01-02 January -- Engineering/Full Moon

15-17 February -- Chinese/Lunar New Year (unless you're experienced observer)

01-02 March -- Engineering/Full Moon

31 March - 01 April -- Engineering/Full Moon

29-30 April -- Engineering/Full Moon

(B) Observers can choose either Apogee U42 or Sophia 2048B CCD as LCI (Lulin Compact Imager), please specify in the proposal. If not the Spohia 2048B will be the default LCI

(C) LCS (i.e Hiyoyu) will not be available in February 2018 [proposal requesting LCS in February will be automatically rejected]

Note that late submission will not be accepted. For information regarding LOT and/or available instruments, please check Lulin's website

(www.lulin.ncu.edu.tw) or consult with Lulin staff
(lulinstaff@astro.ncu.edu.tw)

ToO policy:

- * maximum 2 hr ToO interruption per night; please negotiate/inform the original PI in advance or you need more than 2 hours per night
- * please sent the ToO request to Lulin observing staff (Chi-Sheng and Hsiang-Yao)
- * the original PI/observer remained the right to accept/decline ToO

The accepted proposals and schedule for 2018A Semester will be announced at Lulin's website (www.lulin.ncu.edu.tw) on 15 December 2017 (or later).

Acknowledgment: LOT users are required to include the following statement in their publication:

"This publication has made use of data collected at Lulin Observatory, partly supported by MoST grant 105-2112-M-008-024-MY3."

PS: Please let me know if you encounter problems on the latex templates.

On behalf of LOT TAC: Chow-Choong Ngeow
